

IMPRESSIONS (BY LEA SAMONIG, 7A)

Well, imagine you are standing at Vienna airport, together with a nice group of other students and you are waiting for your flight to the United States - how would you feel? I can just try to express what we felt - we all were so excited and looking forward to spending fifteen amazing days abroad! Of course, we all had been talking about this trip long before, we had heard a lot about America's incredible history, and about this mysterious country, where dreams come true! But no one of us knew exactly what we really should expect and what's going to be behind all these stories and stereotypes we have been familiar with because of newspapers and Hollywood films. We were all so lucky (thanks to our parents and our teachers) to get the chance to form our own opinion about this huge country and its inhabitants and this is why we want to share our impressions with you right now!

~~to practice at the Great Canyon the place is very nice and the views are~~
